

The El Niño Song (tune: Fernando)  
(performed by George Taylor, Oregon SC)

Have you heard about El Niño?  
Pacific Ocean waters warming up again this year.  
Best be ready for El Niño  
This winter will be hell because  
    The weather will be weird  
And if you own a house upon the beach at Malibu  
You should be scared.

It's because of El Niño  
This winter in New York it will be 70 degrees  
Because of El Niño  
It will be as cold in Florida as it will be in Maine  
And every day the forecast in Los Angeles  
    Is mudslides mixed with rain.

If you're wondering why it rains all night,  
The weather bites --- El Niño  
And if you haven't had a drop of rain  
Then you can blame El Niño  
Well, the Weather Channel's so confused  
It's such a mess.  
If your basement has to be pumped out,  
Then curse and shout, "El Niño!"
